## DROP MAT SHELVING SYSTEM (SUPER ERECTA® AND qwikSLOT™)

**Increases Vertical Density.** Available in Super Erecta and qwikSLOT styles, the Drop Mat system can maximize vertical storage density. Whether used for merchandising or storage, Drop Mat's thin shelf design, approximately 1/4", can save up to 1 1/4" per shelf level when compared to sheet metal shelving.

### Features

- Thin, 1/4" shelves
- qwikSLOT style shelves available
- Built-in Ledge
- Quick Adjustability
- Fast, easy assembly and reconfiguration
- Aesthetically pleasing finishes
- Mobile
- Strong, durable

### Benefits

- Increases density up to 20%.
- Can be slanted.
- Frame is attached above surface creating a built-in product stop.
- Super Erecta style is adjustable in 1" (25.4mm) increments. qwikSLOT version allows for the addition, removal or adjustment of intermediate shelves in seconds, at 1" (25.4mm) increments.
- No tools required.
- Metro's stylish design and a palate of color offerings create an attractive yet strong and durable system.
- Optional casters can be added easily at any time.
- Each shelf can support up to 250 lb. (115kg).

### **SLANTED SHELVES**

Any qwikSLOT shelf can be slanted 2" (back to front) simply by adjusting the rear clips 2" higher than the front clips for a given shelf.

For a slanted shelf with a 10" slope from back to front, the Super Erecta qwikSLOT shelf design allows you to install an 18 inch shelf in a 14" deep unit, with a 10" slope. (Same for 21" shelf in an 18" unit; 24" shelf in a 21" unit).

\*For ordering information on Designer colors, refer to bottom of page.

**Important Notes**

1. A typical unit will incorporate 4 qwikSLOT posts, at least 2 Super Erecta shelves (one at the top and bottom of unit), and as many qwikSLOT Drop Mat shelves as desired between the top and bottom shelf.
2. A qwikSLOT Drop Mat shelf is rated at 250 lbs. (115 kg) per shelf. A typical qwikSLOT Drop Mat unit is rated at 800 lbs. (375 kg) capacity per unit. For higher unit capacities, an intermediate Super Erecta shelf must be installed approximately at mid-height on the unit.
3. Mobile Applications: All mobile applications require intermediate Super Erecta shelf installed approximately at mid-height on the unit.
