STARSYS™ SYSTEM Product Selection Guide

STARSYS™ SYSTEM – Baskets and Totes

Designed for environments where aesthetics and cleanliness are essential, Starsys is a modular system that meets the demands for storage, transport and productivity centers. Its polymer construction won't rust, dent, chip or flake, unlike other product construction such as metal or particleboard. Its modularity allows it to be configured and then reconfigured for specific needs. Baskets and totes enhance the system's modularity by providing contained storage that can be repositioned at any time within a Starsys unit.

Systems Oriented – Provides contained storage in Starsys carts and Starsys WorkCenters, in high or low profile models.

Maximizes Storage – Full extension allows additional baskets/totes or polymer shelves to be installed directly above while still providing complete access to contents.

Safety First – Built-in stop on slide prevents unintentional removal.

Increases Productivity – Drop-in design allows picking, packing or inventory to be done at the work area. An inventory replenishment program can be created with pre-stocked baskets/totes.

Improves Ergonomics – Basket and tote assemblies are easily reconfigured without tools allowing the most frequently used to be relocated to a more convenient height.

Starsys Cart

Starsys WorkCenter

STARSYS™ SYSTEM – Baskets and Totes

Features

- Baskets provide visual inventory, light penetration and minimize dust accumulation.
- Totes provide complete containment for smaller items.

STARSYS™ SYSTEM – Baskets and Totes

Stop Kits

Stop kits are required when adding basket/tote assemblies to existing units with polymer shelves and doors that did not originally ship from the factory with full extension Starsys baskets or totes installed. Stop kits replace the flat filler strips on the post between the door hinges.

Cat. No.	Description	Includes
*SXBSTOP	Full extension basket/tote stop kit	One (1) 36" (914mm) stop extrusion Two (2) 90° hinge stop plates

*One kit required per door (27, 30, 33 or 36" [686, 762, 838 or 914mm])

Notes:

1. Basket and tote assemblies are compatible with Starsys units with inner panels.
2. Basket and tote assemblies will fit behind Starsys doors.
3. Basket and tote assemblies must not be installed higher than 48" (1219mm) from floor.
4. A polymer shelf with drawer face is required on tall units.
5. Basket grid spacing is 1¹/₈" x 1¹/₈" (29 x 29mm).

Starsys is a Complete Modular Line of Carts, Cabinets and Workcenters
