

Item # _____

Job _____

SUPER ERECTA SHELF® STERILE WRAP RACK

- **Solves Storage Problem:** Sterile wrap racks provide a safe, convenient place to hold wrap. Most sizes can be displayed prominently so that they are easy to locate. One sheet, or several sheets, at a time can be removed quickly and neatly. The wire bottom shelf, standard on all units, can be used to hold extra wrap, or less frequently used sizes.
- **Adjustable:** The carrier assembly which supports the bars is adjustable in 1" (25mm) increments along the height of the posts so that it can be positioned at a comfortable level for users whether seated or standing. The four bars can also be positioned in any of 18 slots along the carrier assembly.
- **Four Bars Standard:** All models come with four square bars as standard. Additional bars can be added as accessories, if needed.
- **Mobile:** 5" (127mm) polyurethane tread swivel casters provide easy maneuverability.
- **Two Sizes:** Sterile wrap racks come in 24" x 48" (610 x 1220mm) size and 24" x 60" (610 x 1525mm) size. All models are 68" (1730mm) in overall height. The 60" (1525mm) models will hold wrap up to 54" x 72" (1372 x 1829mm).

SUPER ERECTA SHELF®
STERILE WRAP RACK

Specifications

Sterile Wrap Racks consist of four posts, four casters, a wire bottom shelf, three-sided top and intermediate frames, a two-piece carrier assembly, and four square support bars.

- **Posts:** Units have four 1" (25mm) diameter Super Erecta Shelf® posts, chrome-plated with rolled grooves in 1" (25mm) increments along entire height.
- **Casters:** Models SWR556DC and SWR566DC have four 5" (127mm) polyurethane tread swivel casters (5MP) as standard.
- **Bottom Shelf:** Chrome-plated.
- **Top and Intermediate Frames:** Top and intermediate frames are three-sided, chrome-plated snake frames.
- **Carrier Assembly:** Two piece assembly is stainless steel with welded collars.
- **Support Bars:** Support bars are 1" (25mm) square stainless steel.
