Job _____

METRO® SUPER ERECTA SLIDE SYSTEM

- **Versatile:** The Metro Super Erecta Slide System permits total adaptability of slides and tote boxes to any 21- or 24 inch-wide (530 or 610mm) Super Erecta Shelf® open-wire unit. Slides are available in four sizes and can be positioned quickly and easily on new or existing units without the use of tools. Adaptable boxes are available in six sizes, with varying widths, lengths, and depths.
- **Flexible:** The Metro Super Erecta Slide System allows positioning of slides and tote boxes in vertical, horizontal, or freestyle arrangements, for maximum utilization of shelf space. 3", 6", and 8" (76, 152, and 203mm) box depths, in a variety of lengths and widths, hold a wide range of contents. The three different box depths, in different combinations, permit adjustment of shelf spacing from 12" to 19" (305 to 483mm).
- **Easy To Reposition:** Repositioning of slides avoids being "locked in" to one arrangement, as with permanent vertical, or welded single slide systems. As requirements change, reposition the slides on the existing unit or move them to another Metro stationary or mobile unit.
- **Adaptable:** Customize a wide range of Metro products, such as exchange carts (shown), stem caster carts, utility carts, specialty carts, stationary shelving, and the TopTrack™ High-Density Storage System, with the Super Erecta Slide System.
- **Chrome Slides:** Open wire, one-piece slides in four sizes are easily positioned or repositioned without tools. Slides install easily by snapping securely into place on overhead shelf.
- **Tote Boxes:** Offered in seven sizes for complete adaptability to Super Erecta Slides. Made of tough thermoplastic (ABS), these boxes provide years of service. Tote box dividers and lids are available as accessories.
- **Easy To Clean:** Open-wire slide construction allows for ease of cleaning, on or off the unit.

Shelf Spacing — To determine the spacing required between shelves, total the depths of the tote boxes chosen for a given slide, and add 4" (100mm) to that total. The table below illustrates tote box combinations and their corresponding shelf spacing.

Tote Box Combinations (Per Slide)

Tote Box Depths	3" + 6" (76 + 152mm)	6" + 6" (152 + 152mm)	3" + 9" (76 + 230mm)	6" + 9" (152 + 230mm)	3" + 3" + 3" (76 + 76 + 76mm)	3" + 3" + 6" (76 + 76 + 152mm)	3" + 3" + 9" (76 + 76 + 230mm)
Shelf Spacing Required	13" (330mm)	16" (406mm)	16" (406mm)	19" (483mm)	13" (330mm)	16" (406mm)	19" (483mm)
